

## Welcome to the Exhibitionist Bar!

Our cocktail menu is inspired by the major exhibition currently on display. Sit back, enjoy the view and let our team delight you!

*The Gold Coast is an abundant city. From the iconic coastline to the hinterland, from the growing northern suburbs to its southern border, this modern and ever-changing city also has a long history. SOLID GOLD: Artists from paradise presents a rich and varied vision of the region and beyond.*

*Local artists and artist collectives present new artworks that reflect the world around us. They remind us of the beauty of the landscape, capturing it through a local lens. In a city that is ever developing, they examine our sometimes-fraught relationship with nature, and optimistically show us how as individuals we might relate more harmoniously to this wonderful place we call home.*

*As the inaugural exhibition at HOTA Gallery, SOLID GOLD: Artists from paradise celebrates the talented artists connected to the region. We hope you'll agree that it is a fitting beginning to a brand-new chapter.*

In addition to our wines by the glass, we also have an extensive wine list from Palette available on request. The list contains a wide selection of wines made by attentive winemakers and growers working with sustainable, minimal intervention, organic or biodynamic practices.

*Thomas Angel*  
Bar Manager

## **Solid Gold**

18

Husk Botanic + Housemade Vermouth + Lemon Myrtle  
Kombucha - *spritz*

*Gold Coast, Literally.*

22

## **Cloud Drive**

Herradura Blanco + Marionette Blue Curacao + Manzanilla  
Sherry + Pineapple + Cloud - *stirred*

*Over the last few months, Samuel Leighton-Dore has been collecting stories through his website. Members of the public are invited to submit a simple thought or feeling, the kind of thing that many of us would share on social media—a quick status update. These moments have been collected and are available to explore in this physical manifestation of the 'Cloud Drive'. In psychology, clouds often represent our thoughts and feelings; in our digital lives, we associate them with data storage. They become something simultaneously fleeting and long-lasting. In these delicate ceramic clouds, Leighton-Dore aims to make the public personal once more in moments of contact between strangers.*

23

## **Heat and Time**

Fords Gin + Mezcal Foam + Lemon + Native Ginger + Ginger  
+ Burnt Ginger - *shaken*

*Sustainability is the key theme in Claudia De Salvo's time-based installation of clay forms. These vary from 'greenware' (unfired clay) to pieces fired at temperatures ranging from 150 to 1280 degrees Celsius. This demonstrates the transformative development of turning clay into a ceramic. Here De Salvo has poured water into those forms, showing us the chemical process involved in breaking down clay. The action appears as a metaphor for time, human intervention, and durability; it leads us to consider what are the choices we make in creating sustainable objects.*

## **New Now**

20

Havana Club Especial + Red Bean + Suze + Mandarin +  
Thyme + Lime - *shaken*

*Out of the darkness, light begins to appear around the edges. The colours of rainbow glow and grow, emanating from what appears to be the centre. We are drawn in by the colour, and the harmonic resonance of rainbow rings vibrates, bringing our hearts, bodies and minds into alignment.*

*New Now captures and holds us in a joyous moment, using light, colour and contour to generate energy and positivity. In it, we are surrounded by brilliant colour, light and movement created through digital animation, painting, and sculptural elements in the space.*

*Each day we receive*

*Endless chances to renew*

*To cherish the now*

## **Steal the Sunshine**

20

Finlandia Vodka + Marionette Apricot Brandy + Sour  
Passionfruit + Sunflower Seeds + Coconut - *shaken*

*Sun-shine goes in. LED-shine comes out.*

*Steal the Sunshine transforms an image of the sun into a simulation of its daily path across our skies. Created here on a towering grid of lights, using advanced programming and industrial materials and fabrication, Michael Candy transforms the natural into the mechanical, bringing the sun inside.*

*As time passes, the work transforms. We see it grow in intensity through the morning, reaching its peak as the bright, Queensland midday sun, and watch as it fades to nothing with the daily sunset.*

## **Core**

20

Fords Gin + MUYU Jasmine Verte + Left-over Citrus Cordial +  
Sparkling - *shaken*

*Elliot Bastianon's stacks of concrete pipes are a deliberate reference to the pipelines and heavy industry infrastructure used by global capitalism. Pipelines are like underground arteries beneath our feet—transporting mining materials, water, and waste all over the world. The pipes presented here are now clogged. An example that the signals between people and planet are irrevocably jammed.*

*These mysterious structures, with their smooth concrete and their brilliant blue crystals, give us pause to consider what we extract from the earth and our impact on the world around us.*

## **Bloom**

19

Brookie's Gin + Pepperberry Verjus + Grevilla - *Highball*

*Gardening is both a collaboration with nature and a creative act. This living sculpture responds to the events of 2020: an unprecedented bushfire season and a global pandemic. Echoing the flux of recent times, Dennett's work interprets growing as a remedy to help with anxiety and healing. A bed is a familiar object: a place we can rest, feel safe and renew. The act of tending a garden is calming, nurturing, and it cultivates resilience. As the sculpture grows, the edible, exotic and indigenous plants will embed themselves into the landscape and become a part of life, interacting with birds, insects, the sun, the rain and you.*

---

## **Pataka Tangata**

20

Woodford Reserve Bourbon + Pork Fat + Manuka Honey +  
Sweet Potato - *Stirred*

*Pataka are small storage houses of important, sacred and precious objects; including pounamu, garments, weapons, tools, fishing implements, preserved foods and seeds.*

*Pataka Tangata refers to 'people' as storehouses of knowledge.*

*These woven Tukatuku Panels represent "The Knowledge That We Hold Within"; woven symbols and imagery that reference important concepts, life experiences, and stories that sustain us. Stories about balancing the relationships we have with our environment, our families, our community and the other living beings and elements we share this earth with.*
